

Dear Year6 student,

We are really looking forward to welcoming you to the Warriner School in year 7. My name is Alex W-H I am a current year 7 student and wanted to write a letter to tell you my experiences during my first year at the amazing Warriner School. Before I started, I was scared if I wouldn't fit in or not but there is no need to worry about that because there is a place for everyone at the Warriner School. The school helped me settle in by giving me small steps and broke me in gently. My favorite subjects are History, English, Maths, Science, Drama, French and many others because you get to learn millions of things you have never learnt before. Some clubs I have joined are Farm club, Computing club, History club. I've enjoyed them because you get to do loads of things you don't usually get to do outside of school, don't be afraid to try something new you've got one chance and you need to grab it both hands. Probably one of my best memories so far is the time when I had to dress up as Elsa for the Christmas concert it was quite weird but still enjoyable none the less. What I love most about the Warriner School is the teachers and their lessons, they are so nice and friendly they also make their lessons super fun. My advice to you is to just embrace the time you have as a year 7 and just enjoy it. Don't be afraid to try something new you never know you could find your favorite thing to do whilst you're there.

From

Alex W-H

P.S: I'm looking forward to seeing you here 😁
