

Dear year 6,

It won't be long until you come and join us at the Warriner school - we can't wait for you to come! in the meantime, I would like to tell you about some of the things that you can look forward to...

One of the biggest differences about secondary school is that you will have a much larger range of subjects - and of course, teachers. you will cover everything from History to French, design technology to science. Don't worry if it sounds like lots of different subjects - you will pick them up!

One of the big issues that you may have is not being able to find where you're going, don't worry - just look around and find a member of staff or look at your map, you will get a map on your first day with a time table. Making friends, when you start you may make friends with new people, and as it's a big school you will meet a lot of new people.

uniform and equipment, you will need this for your lessons. If not the teacher maybe able to supply you with a pen or a ruler in the first couple of weeks, but after that you will need to be organised. your uniform needs to be smart so you represent the school well.

I hope this makes you feel excited and we are looking forward to meeting you. From gabe
