

Each year the Warriner School in conjunction with parents have a course run by parents of teens called Parentalk, to help parents become re-connected after moving from primary school to secondary.

Each course includes 6 video based sessions with the opportunities after each section of the session to chat with the group and share ideas.

The course will be run in early spring term 2025; watch out over the coming months for communications on how to sign up and get involved.
