The Warriner School Laptop Programme

THE WARRINER SCHOOL LAPTOP PROGRAMME

The last 3 months have already shown how much easier learning from home is when students have the right technology. It is clear that learning and the way we teach will not return exactly as it was before this crisis. We have moved a long way in term of teaching and learning methods and want to embrace the opportunity for change.

We therefore want to do all we can to help all of our students have access to a suitable device as soon as possible. Using mobile phones or sharing devices amongst other family members doesn't work well at all when lessons are live online or when homework demands the use of technology. The laptop has become an essential part of our students required equipment.

In the longer term, if a high proportion of students take up the device offer, we shall look to embed the use of technology in day-to-day lessons. By doing so, we can enhance the learning experience in many subjects.

THE EQUIPMENT ON OFFER

Following consultation with other schools who already use different kinds of devices, we have selected a laptop which is best suited to enhance the learning experience of our students at The Warriner School, both for home learning and at school.

These laptops are specifically designed for student use with a ruggedised outer casing to ensure that they withstand all functional requirements. They each have a 3 year extended warranty and 3 year protection for accidental damage and theft with £0 excess, giving complete peace of mind.

WHAT'S INCLUDED?

- HP x360 Convertible Laptop designed for students
- 3 Yr Extended Warranty
- 3 Yr Accidental Damage Protection - £0 excess
- 3 Yr Theft Protection - £0 excess

HOW MUCH DOES IT COST?

Prices start from as little as £16.95 per month over 36 months including all of the items above. Other payment terms are available. There are no credit checks and it is open to all students.

Parents / Carers can opt to pay via monthly direct debit up to 36 months or a one off payment through the online ordering portal.

Please note: financial support is available from school for families who are struggling to find the money at the moment.

WHY THE HP PROBOOK X360?

Inspire limitless learning with the HP ProBook x360 11 G5 Education Edition that easily flips and folds to suit all the ways students like to learn, in and out of class. Exclusive HP software tools make it just as easy for IT to secure and manage.

Engineered to keep pace with busy students

Deploy a device that can work if it falls off a desk, is splashed with a liquid or has the power cord compressed. It resists spills and attempts to remove keys, has metal-reinforced corners, and is 122 cm drop tested—higher than most desks

Immersive 360° multi-modal learning

Let students learn the way they want—by typing, touching, writing, capturing, drawing, and reading on one flexible device.

IT-friendly manageability and security

Enable students to move quickly between writing documents, running simulations, and editing videos with the latest Intel® processors.

Say goodbye to downtime from damage with Corning® Gorilla® Glass, rubber bumpers, an anchored keyboard that resists spills to 12 oz (330 ml), and a reinforced power port and corners in a design that undergoes MIL-STD 810G and education testing

An easy-to-grip chassis that also hides fingerprints and smudges. Say goodbye to sticky devices with a keyboard that can be repeatedly wiped down with common household cleaning wipes, even while on.

Spend more time learning with a long battery life and HP Fast Charge, which recharges the battery to 90% in 90 minutes.

Unleash creativity with the user-facing camera for recording video, broadcasting live, and remote collaboration, or the optional world-facing 5MP 2nd camera for real-time recording monitoring.

HOW DO I PLACE MY ORDER?

Go to: www.tech4learners.co.uk

- 36 month = £16.95
- 24 month = £23.96
- 12 month = £44.93
- 1 Payment = £508.99

Frequently Asked Questions

How long can I spread the payments over?

12, 24 or 36 months depending on how long your child has left at the school.

If you have a child in Year 7, 8 or 9, you can choose to spread the payments over 12, 24 or 36 months. For Year 10 or 12, you can choose to spread the payments over 12 or 24 months. For Year 11 or 13, you can spread the payments over 12 months.

For all Year Groups, you can make a single up-front payment if you prefer not to spread the cost.

Is there any financial assistance available?

It is really important to us that no child misses out on having access to a device for financial reasons so please do not be worried about asking for support and we will try and help where possible.

Please contact ****insert name and email address ****

What happens at the end of the agreement?

On your final payment the device becomes yours. If paying upfront, then the laptop is yours from day one.

Will there be any credit checks?

No everyone is approved and there are no credit checks.

What is the excess on claims?

There is no excess on the either the accidental damage, theft or warranty protection. This is a huge benefit of this programme!

How do I claim for warranty, accidental damage or theft?

You will be provided with policy documentation detailing how to make claim. A courier will arrange delivery of a replacement device from spares stock held within our Service Centre. This will be a direct replacement of the laptop that you originally ordered and will be issued within 48 hours.

Can students use the device at home?

Yes, the student can use the device to further enhance their learning and we recommend that you set your security setting on your Wi-Fi accordingly.

When will I receive the device?

The ordering window will open on the 9th September and orders need to be placed by the 11th October. Your first direct debit will be collected on the 25th October. Devices will be delivered in November.

What happens if I miss a payment, can no longer afford the device or my child leaves the school?

You must return the device to the school or alternatively pay the outstanding payments to take ownership of the device. You will not own the device until the final payment is made.

Does the software on the laptop differ according to a child's year group?

No it doesn't, although the laptops benefit from similar security protections as those in school so age-restrictions may still apply on certain sites or applications that will be applied by the school.

What happens if I don't buy a laptop?

No provision will be made for those choosing not to take advantage of the scheme.

Do the laptops come with a sleeve or bag?

No, they don't, but they are specifically designed for education and student use. The Lenovo x360 is engineered for durability, with rubber bumpers, reinforced ports and hinges, and mechanically anchored keys. It's even drop-resistant up to 29.5 inches (122cm), which is higher than the height of a school desk. Parents/carers are welcome to buy a case separately if they wish to but they are designed to fit into a school bag.

I don't have wifi at home (or intermittent wifi) – if I was to buy a dongle or SIM card at a later date to use with the laptop, would it work?

The laptop will work with a USB Dongle or tethering device (such as a 'hotspot') but do not have a SIM card slot. It is also possible to work offline on the laptop.

Will there be future windows available to sign up for laptops?

If there is demand for it in November once we see how many students have signed up, we may open a 2nd portal but special bid pricing is only confirmed for this ordering window. The terms and conditions will remain the same.

Is there any limit on the number of claims per child or laptop?

Whilst there is no cap on the number of claims, we would expect students and parents to look after them. If a pattern of claims develops, Freedom Tech will flag this up to school for us to discuss with you and your child. In these cases, we may ask that the laptop be kept in school for your child to use rather than being taken home. There is a £0 excess on all claims for Warranty, Accidental Damage and Theft.

Will my child be able to use the laptop in school?

At the moment the device is to support home learning, however, we are investigating how we can support their use in school. As such, your child should only bring their device to school if authorised by their head of year.
